## Information about your video recording in the preliminary round

The preliminary rounds of the competition take place online. Please send a link of your videorecording to: [secretaryflutecompetition@gmail.com](mailto:secretaryflutecompetition@gmail.com) **before February 15.**

You are requested to submit one **single, unedited videorecording** with your piece for flute and piano and your piece for flute solo:

- The two pieces may be recorded at different times and/or locations and at a later time linked up to **one video**.
- You must not exceed the performance time of **20 minutes** including the breaks in between.
- You must record from a fixed camera standpoint and a frontal point of view. Ensure that the piano and the pianist can be seen also.
- You should ensure the video is filmed indoors and has a **neutral background**, without visible personal belongings.
- You start your video recording by clearly mentioning in English **your name and the pieces** you are going to play.
- If you have given us permission, your video recording may be **published** on our website and our social media from March 15 onwards.

From February 15 through March 15 our adjudicators will adjudicate the video recordings. Rating scores will be given for both musicality and technique. Each participant is adjudicated by 3 adjudicators. They will give points from 6 to 10 and up to 1 decimal each. The maximum score will therefore be 60 points. The highest total scores determine who will be shortlisted for the final round.

On **March 15** you will receive an e-mail whether or not you are shortlisted for the final round and in which range of rating you have ended in the preliminary round. Each individual adjudicator will write down some focus points on which you might study in the future.

*Lots of success!*
